Dictionary of Philosophy

DAGOBERT D. RUNES, Editor

"THIS book is, to say the least, all that its editor claims for it. The astonishing element about it is its compactness into a handy volume, all-embracing in content, clear in exposition, objective in viewpoint and earmarked by a correctness that is inescapable."—*Dean James F. Carroll, Duquesne University.*

"By far the most authoritative book of its kind."—*Prof. Karl Jaspers* $6.00

JOHN DEWEY'S

latest major work

PROBLEMS OF MEN

"A MIGHTY BOOK . . . addressed to the general reader. John Dewey is a humane philosopher, indulgent to the foibles of mankind so long as these do not seem to him to involve fatal consequences. His influence reaches farther than that of any other philosopher of our times, and is still advancing."
—*The New York Times* $5.00
